

See your business' heartbeat.

ExecutiveDashboard.com

Every business has at its heart a few critical numbers.

Numbers that can inspire, guide, motivate, terrify or reward.

Keep them always in mind.

Executive Dashboards works with your clients to provide a stylish, board-level, real-time heartbeat of their business - showing metrics that matter and the ones that can make you look good.

We happily work on a revenue share basis with ongoing maintenance for a long and healthy relationship.
